

## *Sydney Rae Horsemanship*

Training program based on traditional methods and effective communication with an understanding of equine behavior, locomotion, and anatomy.

---

Typically, I focus my methods and riding discipline around Western riding and traditional Vaquero horsemanship to communicate with the horse the best way they understand. Ultimately, the goal of my training program is to teach the horse balance, rhythm, and cadence, to have manners and respect for the rider under saddle and on the ground. I also want the owner of the horse to understand what I am doing so that when they ride, they can continue the training with their horse. I have a few availabilities and can travel to you to train and if the owner would like, I can also teach lessons.

## *Sydney Rae Horsemanship - Lessons*

Lessons are based on teaching students how to understand horse behavior, communication and learn to ride safely.

CHA certified with Equine Training/Teaching Insurance.

I have a few availabilities through the lesson program at Garrod Farms and I am willing to travel to someone with privately owned horses to teach lessons.
